ERGONOMIC**

**ULTRA-RESISTENT
& EASY TO
TRANSPORT**

**NO MAINTENANCE
& NO MAT
REQUIRED**

MADE IN ITALY BY CRAFTSMAN'S HANDS

3 DIFFERENT MODELS

FLYBOARD "X" It is the ultimate concept of the Flyboard Balance Board. It is always made of natural wood and eco-leather, but it differs from other versions on the market, because it is finished externally with an elegant black anti-slip texture, so as to appear captivating and aggressive at the same time. It is suitable for PT and HOME FITNESS and it is also used by children, as it weighs less than the other versions and is more manageable. It is used without a mat and tested to support up to 250kg of load.

FLYBOARD "FITWELL"

FLYBOARD "FITWELL" Unlike the X model, the "FITWELL" is a Flyboard model reinforced with an additional internal sheet, which allows it to support up to 300 kg. In addition, it has an integrated anti-slip mat on the concave side, to preserve the spine in Postural, Pilates, Yoga and Functional exercises. It is made in yellow and red colors and has a weight of about 6 kg. Best seller at CLUBS, SPAs and FITNESS CENTERS.

FLYBOARD "CUSTOMIZED"

FLYBOARD "CUSTOMIZED" This is the top of the range models with fine materials and an elegant design. The "CUSTOMIZED" Flyboard offers the possibility to print your Logo on the convex side, to reinforce your corporate brand. You can also choose the colors to use that recall your business. It is generally intended for COMPANIES with prestigious Brands and luxury and excellent NETWORK CLUBS.

It supports a load of up 500 kg and weighs approximately 7 kg.

FLYBOARD TRAINING PATH

Two Pathways, One Vision of Wellbeing

FITNESS & HOLISTIC

Flyboard's training platform

The Flyboard® method offers two distinct yet complementary training paths:

Fitness – for a dynamic, toning, and functional approach

Holistic – for a slower, deeper, and rebalancing experience

Each path is structured into **5 progressive training steps**, designed to **support instructors** in their **technical and educational growth**.

All content – courses, updates, video routines, and exclusive materials – **is available on a dedicated web platform, accessible anytime, anywhere.**

FLYBOARD TARGET MARKET

HOME FITNESS

Flyboard allows you to **train anywhere**, even when you are traveling for work, or when you do not have time to move from home.

CLUBS - FITNESS CENTERS - HOTELS

It helps you to build loyalty and increase the membership by offering **the best training experience to customers**. We provide tuitions and support for gyms, clubs and trainers.

PERSONAL TRAINER - PILATES/YOGA STUDIOS

Flyboard is an excellent tool that adapts to any type of training thanks to the use **on all four sides**. It is the best solution for the PT who has a **whole gym in one simple curve!**
